CS Tutors

Mission

The Tutors have been hired by the Computer Science Department to help students in CS161 through CS311 with coursework, programming and the local computing environment. The Tutors are Computer Science students who have strong communication skills and a demonstrated mastery of the basic undergraduate Computer Science curriculum. The mission of this team is to provide a positive work environment for our peers by sharing our experience as undergraduate Computer Scientists.

Headquarters

The tutors are located in suite 88 in the basement of the Fourth Avenue Building. The CS Linux and CS Windows labs are also located in suite 88.

You may contact tutors by email with your questions; send mail to tutors at: tutors@cs.pdx.edu.

You can also reach the on duty tutor by phone at 503-725-4056.

The Tutor Supervisor is Cory Kolbeck.

The Lab Library:

Located in the same room as the tutors, the CS Tutor Library contains many reference manuals and technical books, videos and other resources covering many facets of computer science.

IRC Chat

We will also answer questions online at: irc.cat.pdx.edu on the IRC chat channel #CSCHAT [#cschat via web browser](#)

Association for
Computing Machinery

Advancing Computing as a Science & Profession

The ACM@PSU is a student organization devoted to fostering community and encouraging students to explore the field of computing. We hold weekly meetings to socialize, enjoy refreshments, and hear interesting talks aimed at an undergraduate level.

Fridays at 4pm in FAB 88 (The Tutor Lounge)
